SCHUETZ IN MIDDLETOWN; TRANSFERBED FROM NORWICH William F. Schuetz, who has gained quite a reputation in Tolland county

William F. Schuetz, who has gained quite a reputation in Toiland county for exapting from fall, was transferred from the Norwich state hospital Tuesday to the Middletown state insane asytum upon the order of Toiland county superior court. He caused quite a commotion at Rockville Tuesday by stating that he was 50 years shead of the times and said that 50 years from now people would not be wearing clothes.

He tried to carry out this theory and took off some of his clothes while lodged in the care in Hockville police headquarters. He was sent to the Norwich asylum at the Docember term of the superior sourt, when he was charged with breaking and entering, and previous to this be broke out of Toiland jail, he said, to go to Ella Wheeler Wilcox's funeral. He broke out of Norwich state hospital and was only caught Monday by Deputy Sheriff Thomas G. Tucker of Columbia.

Schuetz has a craze for breaking into unobcupied cottages and will not damage the nottage other than to take food out of it and sleep there. He told Sheriff F. O. Vinton that if he would only take him upstairs to the court room and let him talk to the judge he would be orderly and would behave properly. Tuesday afternoon Capt. Robert T. Hurley of the state police took him to Middletown.

The 60 barreis of fish which were shipped from here Saturday night, and which the expressmen in New London refused to handle, owing to the strike, were sent back to the local agent Monday. They were loaded on two large trucks owned by David Doyle & Son, who left here late Tuesday afternoon for New York. It is the calculation of the shippers to have the fish in Fulton Market in time for the early morning sales Thursday. Owing to the strike there is no fish in the market, and the shippers from here expect to get a hig price for them. The marketmen have their own en ployes, who are in no way connected with the striking expressmen.

Flatfish were selling at the north dook. Theseday for

The new way-just soak, then rinso-that's ell!

Away with the washboard - the boiler!

You can get your clothes gleaming whitejust by soaking

TOW is the time to send all the old washing things to the garret. The boiler and the washboard. The scrub brush, the pails and the dippers. The laundry soap, the washing powder, and the soda. You can do without them all. They only recall the drudgery and the backaches.

All you need today is Rinso.

Rinso is the wonderful new form of soap in granules-for the family washing. The Rinso granules, dissolved first in a little water, stir up into a seapy, bubbly tubful. You leave the clothes in over-night or for three hours in the morning. Then just rinse and hang out.

The new way saves your clothes -saves your time

Your clothes are as safe in Rinso suds as in clear water. Rinso is so pure and so high in soap value that it loosens every speck of dirt right out—even in cold water. You can actually feel the soap in the water.

No hard rubbing. Only very soiled places,

wristbands, cuffs, etc., need a little light rubbing between your hands no more. Rinso does away with that awful bending over a board and scrubbing until your hands hurt.

No boiling—Rinso makes perfectly white clothes without boiling. You need never boil your clothes again unless occasionally to sterilize them. -

Aprons, housedresses, men's shirts, the hand towels—you can just rinse them white and clean, after a soaking in Rinso suds. And the clothes last twice as long without that heartless scrubbing and boiling to weaken the fabric and fade the colors.

Try the Rinso way this very next Monday. Until you have tried it once you cannot realize what a relief it is from the old-fashioned washday methods.

Get Rinso from your grocer today and fol-low the easy directions on the package. One 8c package does your whole week's vashing. Lever Bros. Co., Cambridge, Mass. (Makers of Lux.)
